

Indiana Department of Natural Resources / Division of Water

30 Day Public Notice Report

The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director
Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

For a petition to be considered valid it must:

1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water
Room W264
402 West Washington Street
Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

30 Day Public Notice Report

Application # : FW-24546

Stream : St. Joseph River

Applicant : City of South Bend
Carl P Littrell, PE
1316 County-City Building
227 West Jefferson Boulevard
South Bend, IN 46601-1830

Description : A 1.63 mile bicycle/pedestrian trail is proposed. Two seating nodes and one parking node are also proposed. Revetment riprap will be used for slope stabilization at Node E and as outlet protection at Structure 14. A total of approximately 413 tons of riprap will be used at Node E. Additional fill including riprap and backfill will be required along other portions of the trail. A modular block retaining wall and a sheet pile wall are proposed as well. A crosswalk near Pinhook Park, Cleveland Road, Eastmont, and Viking Drive are also proposed. Riverside Drive modifications including minor HMA widening will be required. Specific project information will be added to the description as the application is further reviewed. Details of the project are contained in information and plans received at the Division of Water on October 11, 2007.

Location : Beginning approximately 150' north of the Oakwood Boulevard and Riverside Drive intersection and extending 8000' north to a point 90' southwest of the southwest corner of the west abutment of the Darden Street Pedestrian Bridge
DOWNSTREAM: near South Bend, Portage Township, St. Joseph County

30 Day Public Notice Report

Application # : FW-24556

Stream : Jim Run

Applicant : Patrick Dwyer
PO Box 171
Metamora, IN 47030-0171

Description : A 9' diameter by 20' long metal culvert bridge has been constructed 40' from the confluence with Duck Creek. The culvert is tied down by 12" poured concrete walls reinforced with 5/8" rebar set onto 36" deep by 36" wide reinforced footers. Walls are set back from each end of the culvert creating a 16.5' wide gravel entry lane which is 33' in length. The north walls are 12'5" at the west end of the culvert and 8' at the east end of the culvert. The south walls are 8'3" at the west end of the culvert and 6' at the east end of the culvert. Tie down walls are vertically reinforced with 5/8" rebar every 4' and wired together horizontally every 2'. Tie down walls are drawn together with 5/8" wire cable into 5/8" eye bolt on reinforced metal bar at 3', 5', and 7' above footer level. The culvert is bolted (from inside into concrete) to the wall every 2' with a 1/2" by 12" anchor bolts. The culvert has been backfilled with bank run to an elevation of 10.5' above the creek bed at the center of the culvert and level with the 6' bank height on both sides. Specific project information will be added and modified to the description as the application is further reviewed. Details of the project are contained in information and plans received at the Division of Water on October 19, 2007.

Location : 18193 Duck Creek Road, approximately 40' upstream of the confluence with Duck Creek and 60' west of the Duck Creek Road crossing over Duck Creek near Metamora, Blooming Grove Township, Franklin County
NW¼, SW¼, NW¼, Section 19, T 12N, R 12E, Miami Quadrangle
Quad Code: 4008651
